Surface Water Withdrawal Application Conodoguinet Creek & Consumptive Use Application Project Summary

SRBC Pending No.: 2023-094

This summary is only a portion of the application materials and is meant to provide general information about the proposed project.

Project Sponsor

Company Name: Rich Valley Golf, Inc.

Address: 227 Rich Valley Road

State: PA

City: Mechancisburg

Zip Code: 17050

Contact Person: Amy Fernandez

Title: Operations

Telephone: (717) 691-8805

Fax: (717) 691-5735

Mobile:

Email: amyrvg@yahoo.com

Requested Surface Water Withdrawal Quantity

Projected Design Year: 2039

Existing Withdrawal Quantity: 0.325(mgd)

Requested Withdrawal Quantity: 0.325(mgd)

Maximum Instantaneous Withdrawal Rate: 350(gpm)

Estimated Daily Operation: 15(hours/day)

Requested Consumptive Use Quantity - Yes

Existing Consumptive Use: 0.325(mgd)

Requested Consumptive Use: 0.325(gpm)

Pre-Compact/Grandfathered CU: 0

Facility Location

Street Address: 227 Rich Valley Road
State: PA
County: Cumberland
Municipality: Silver Spring Township
Zip Code: 17050

Surface Water Withdrawal Source Information

Source Name: Conodoguinet Creek
Source Type: stream
Subbasin: Lower Susquehanna

PHONE: 717-691-8805

Rich Valley Golf Inc is requesting the RENEWAL of SRBC Application #19990306, which authorized the Surface-Water Withdrawal (30 day average) of .325 mgd from Conodoguinet Creek and Consumptive Water Use of up to .325 mgd for Golf Course Irrigation.

FACILITY NAME. Rich Valley Golf Course

LONG TERM OWNER/OPERATOR: Rich Valley Golf, Inc.

LOCATION. The site/facility is located along Rich Valley Road in Silver Spring Township, Cumberland County, Pennsylvania. The location of the surface water withdrawal is a point on the west bank of the Conodoguinet Creek, approximately 150 feet upstream of the southbound lane crossing of Interstate Route 81.

PURPOSE. The purpose of the application is to request approval for the continued surface-water withdrawal and consumptive use of water for irrigation of fairways, greens and tees at a 21-hole golf course and driving range.

START OF OPERATIONS. September 01, 2001

PROJECT FEATURES. We are requesting a continued approval for the surface-water withdrawal of up to .325 million gallons per day (mgd) and consumptive use of surface-water of up to 0.325 mgd for the irrigation of greens, fairways and tee boxes at our 21-hole golf course facility and driving range. Water requirements for the golf course facility were determined from calculated irrigation requirements of 305,530 gallons per day at time of installation and the calculated evaporative losses from surface water storage ponds with a storage capacity totaling 6+ million gallons. Surface area of storage ponds total approximately 3.3 acres.

PROPOSED CHANGES. There are no proposed changes for the project renewal at this time.
