System: CAN DO Inc.

Address:

City:

State:

Zip Code:

State System ID No: PA2400806

Requested Consumptive Use Quantity

Project Design Year: 0.099

Projected Consumptive Use: 0.099 (mgd)

Project Facility Description

The Hershey Company – Hazleton Plant

The Hershey Company consumptive water use has increased due to higher than expected cooling tower usage rates. Additionally, The Hershey Company is expecting additional cooling tower capacity needs in the future with the possibility of a new production line. Existing processes at the facility will continue to use water in the manufacture of several confectionery products, as well as, through evaporative sources.

A peak daily consumptive use rate of 0.099 mgd (99,000 gallons per day) is estimated. Domestic water use throughout the facility will be supplied by CAN DO, Inc. Water Department and discharges from the facility will be directed to an on-site pre-treatment plant prior to being sent to the CAN DO, Inc. Sewer Authority.
