Requested Consumptive Use Quantity

Project Design Year: 15

Projected Consumptive Use: 1.300 (mgd)

SVC Manufacturing Inc./Gatorade is requesting to renew Commission Approval By Rule ABR-201012042, which authorized the consumptive use of up to 1.3 mgd from public water supply, Pennsylvania American Water, at the Gatorade plant, an existing beverage manufacturing facility, located in Wright Township, Luzerne County, Pennsylvania. The facility has been operational since 1988.

Water is used during Gatorade and Propel manufacturing as an ingredient in the final product, in addition to various sanitation and cleaning operations. Any water not consumed during the manufacturing process is routed through the on-site wastewater pre-treatment facility; the site then discharges pre-treated water to the Mountain Top Area Joint Sanitary Authority waste water treatment system.
